Complete Bouguer gravity map of the Vidal area, California and Arizona compiled by D.L. Healey and F. E. Currey

EXPLANATION

Gravity contours.

Dashed where approximately located.

Contour interval is 5 mGals.

Areas of high gravity are shown by "H."

Areas of low gravity are shown by "L" and hachures.

Reduction density: 2.67 Mg/m³.

Terrain corrections were made to a radial distance of 166.7 km.

Stations are not corrected to the 1971 IGSN datum

Gravity stations

Stations established or compiled by S. H. Biehler (written commun., 1975)

Stations established by the U.S. Geological Survey

Gravity base station

City Canyon
